# BOND FOR \$2000 ON THREE CLAIMS

AN OPTION ON GROUP NEAR HAWTHORNE

Confirmation of the report that a the claims of C. L. Burge at Sul phide, fifteen miles southeast of Hawthorne, was received this week. says the Walker Lake Bulletin.

Mr. Burge has owned these claims for a number of years, and has made several shipments of gold ore which have given him good returns. He recently sent samples of the ore to the university for analysis, and the receipt of the returns was the first intimation that there was tungsten on the ground. He later succeeded in interesting the Atkins-Kroll people in the property and H. A. Morrison was sent to examine the ground, with the result that it was at once bonded to that company for \$20,000, the first payment of which sum is to be made

The ore occurs in a contact of lime and granite, the ledge appearing to ore, be a large one, but further work is necessary before a definite idea of its extent can be had. Tests made by Mr. Morrison give returns ranging from two per cent to twelve per cent scheelite. Considerable work has been done on the ground, there being one 30 foot and one 50 foot shaft and several smaller cuts, all of which

Four men have been put to work under the direction of Mr. W. J. Brown, an experienced tungsten miner, who has been in the employ of the Atkins Kroll people for several years. A large tent has been erected and will do temporary service as a bunk house. It is not probable that the force will be increased at present it being the intention of the company to continue one of the present shafts to a depth of 100 feet and there begin crosscutting. It is stated that if the mine proves up as it promises to do. a concentrating plant will be erected Ely Record. at Whisky Springs, a distance of four miles from the mine,

All of the ground adjacent to Burge's group, which comprises three claims, has been located, but there is still much vacant ground in the vicinity and this is being thoroughly prospected. K. Barret, J. G. Atchison, lyar Glommer and Harriss all have close-in claims.

Administration of justice in western Alaska comes high, because of the great distance involved in transportng witnesses and prisoners. Recent ly a government teacher was conviced at Seward for an alleged statu ory offense at Attu island, where his school was situated. Fees and traveling expenses ran to \$15,000, all told. The coast guard cutter Tahoma wa wrecked while en route for additional witnesses and several of her crev were drowned. The boat carrying the risoner to the revenue cutter up set and the prisoner's leg was broken. the total cost of the trial was said o exceed \$75,000, besides loss of life.
